TAX-FREE CHILDCARE AND FUNDING

Tax-Free childcare scheme

The tax-free childcare initiative is an online savings account for working parents to save up funds for childcare. We encourage all eligible parents to sign up to the scheme, because for every £8 that parents pay into the account, you get a £2 top-up from the government. This is the equivalent to 25% extra and so it is considered tax-free.

The government will pay a maximum of £2,000 in any one year, meaning that under the scheme, annual childcare costs of £10,000 would cost £8,000 to parents. For disabled children, the figure rises to £4,000.

Apply for tax-free childcare here [Apply for Tax-Free Childcare - GOV.UK \(www.gov.uk\)](https://www.gov.uk/apply-for-tax-free-childcare)

Please note that if you are already part of a different childcare voucher scheme, (i.e., through your employer) then we do still accept payments through these, however all schemes other than the government tax-free scheme above were closed to new entrants in October 2018.

15- and 30-hour funding for 3- and 4-year-olds

All children living in England are eligible for 15 funded hours of childcare per week (570 hours per year) starting from the term after they turn 3 years old. Their birthday must fall on or before the cut-off date as below:

- 3rd birthday on or before 31st August to receive funding in autumn term (September start)
- 3rd birthday on or before 31st December to receive funding in spring term (January start)
- 3rd birthday on or before 31st March to receive funding in summer term (April start)

To receive the 15-hour funding for 3- and 4-year-olds, you will be given a form to complete by your child's childcare setting.

Additionally, children of working families* living in England are eligible for a further 15 funded hours of childcare per week. So, they can have a total of 30 funded hours per week (1,140 hours per year) starting from the term after they turn 3 years old as above.

*Eligibility:

- Both parents (or the sole parent in a single parent family) need to be working and earning, on average, at least the equivalent of 16 hours on the national living/minimum wage per week. The number of hours worked is less important than the money earned, so if you are a high earner, you could be working only a few hours per week and still be eligible.
- If you, or your partner, are on maternity, paternity or adoption leave, or you're unable to work because you are disabled or have caring responsibilities, you could still be eligible.
- You can't get 30 hours free childcare if either you, or your partner, each individually expect to earn £100,000 or more.

To receive the 30-hour funding for 3- and 4-year-olds, you must apply the term before you wish the funding to start. There are cut off dates for applications. Once your application has been

processed, you will receive a funding code which you can give to your child's childcare setting. Apply here [30 hours free childcare - GOV.UK \(www.gov.uk\)](https://www.gov.uk/30-hours-free-childcare)
